Nahom Tewodros

Fullstack Software Developer
+251 930902116 | nahomtewodrosm@gmail.com | LinkedIn | GitHub | Website

Summary

Full-Stack Developer specializing in Next.js, Node.js, MongoDB, and PostgreSQL, building scalable web applications and seamless user experiences. Developed a functional e-commerce platform with MongoDB, Clerk authentication, responsive Tailwind CSS interfaces, and Next.js RESTful API routes that reduced response times by 40%. Experienced in deploying applications with Vercel, optimizing backend performance, and collaborating across teams,

Technical Expertise

- **Frontend Development**: React.js, Vue.js
- **Backend Development**: Node.js, Express.js,Next.js
- **Database Management**: PostgreSQL, MySQL, Redis, MongoDB, Prisma
- **DevOps & Deployment**: GitHub Actions, Vercel deployment scripts, API gateways
- **Code Architecture**: CLEAN architecture, SOLID principles, Domain-driven design, Test-driven development.
- **Programming Languages**: Javascript / Typescript
- **Soft Skills**: Problem Solving, Critical Thinking, Communication, Team Collaboration, Attention to Detail, Crm

Experience

Self-Employed | Freelance | *Full-Stack Developer* 2023 - Present

- Developed a fully functional Shoe-Shop site with Next.js as a full-stack application, integrating MongoDB for data storage and Clerk for authentication.
- Designed a seamless shopping experience with animations, dynamic user interface elements, and Tailwind CSS for responsive layouts.
- Created RESTful API routes with Next.js Server Components, reducing response times by 40%. • Implemented middleware for error handling and security enhancements.

Qemem Technologies | *Full-Stack Developer* 2022 - 2025 • Developing and maintaining scalable web applications using React, Node.js, and MongoDB. • Implementing RESTful APIs and optimizing database performance for seamless backend operations. • Enhancing UI/UX using Tailwind CSS and modern frontend frameworks.
• Collaborating with cross-functional teams to deploy secure, high-performance applications. •
Managing deployments with Vercel and cloud-based services to ensure smooth CI/CD workflows.

Truest Tech | *JUNIOR FULL-STACK DEVELOPER* 2020 - 2022 • First Internship program i had while i was in university completing my bachelor's degree in computer science • Introduced to Fullstack web development with Next.js and third party software integration also I started working with non relational databases.

- Advanced my skills on frontend design with component libraries and other development methodologies that focus on UI/UX
- Overall my first real life experience of professional development and team work that was beneficial for me and my developer career.

Certifications

- Frontend: (FreeCodeCamp / Udacity)
- Backend: (FreeCodeCamp) • Advanced JavaScript , Typescript: (FreeCodeCamp / Simplilearn / SkillUp)
- Ai Fundamentals: (simplilearn)
- Typescript Development: (FreeCodeCamp)
- MERN Stack Development: (SimpliLearn/SkillUp)
- Data Science: (SimpliLearn / SkillUp)
- Mean Stack Development: (SimpliLearn / SkillUp)

Languages

- English(Fluent)
- Amharic(Native)
